Best of France Weekend

Posted by Amira Jumaa on September 30, 2015 at 2:59pm [View Blog](#)

France has never been this present in New York City! The *Best of France* event, the largest worldwide event dedicated to France, took place on September 25 and 26, providing New Yorkers an image of the French life. Over 500,000 people attended during those two days to get a touch of different French experiences: tourism, lifestyle, gastronomy, technology, etc...

The city of New York got its French experience with the many stands and booths that were present last weekend. Different exhibitors and associations displayed their programs and offers by distributing flyers and brochures, organising runways and putting on a show! The event gives the residents of New York the opportunity to be permanently connected to France, by subscribing to some of the French experiences located in New York, and even elsewhere!

Best of France was certainly a large success thanks to the efforts of the exhibitors, organisers and of course, all those who have attended! We hope that the event put together nothing but the best of France.
